

Philosophical Framework

The process of “Strategic Planning” involves the collective effort to answer a set of fundamental questions; where are we now, where do we want to be and how do we get there.

Vision

An institute of excellence in health research, innovation and knowledge translation.

Mission

To discover, apply and disseminate knowledge through creative and innovative health research.

Core Values

1. Freedom of thought and expression: We shall promote and uphold freedom of thought and expression in academic inquiry and knowledge translation.
2. Creativity and Innovativeness shall be the hallmark of our research projects/programs.
3. Professionalism: We shall maintain professional etiquette and honesty. We shall conduct research according to established national and international research standards.
4. Team spirit and team work: We shall nurture a research culture that is participatory and non-discriminatory.
5. Transparency and Accountability: We shall embrace and practice good corporate governance.
